### Experiences

#### **YasnaTeam** Sep 2019 — Dec 2019

As a user interface designer and front-end developer, in addition to designing client websites, I worked on the company's proprietary CMS, Groot. My job was to create components to complete this CMS.

#### **E-Seminar** Jun 2019 — Sep 2019

As a user interface designer and front-end developer, I worked on the e-seminar platform, improved and created vue.js components and fixed responsive issues.

#### **Dunab Ertebat LLC** Sep 2018 — Jun 2019

I created SPA projects with Vuejs and collaboration with art designers on Finnish projects. Also I designed landing web pages for international projects.

#### **VAMx** Sep 2018 — Jun 2019

I co-founded and functioned as a user interface designer and front-end developer, I designed user experience and user interface of web application and mobile application.

#### **GilasWeb** Aug 2016 — Jun 2018

I was involved in the founding of the team and we formed a good personal business with four others, I worked as a frontend developer and interface designer for the team.
